(NOTE: A gradient fill, a texture or a pattern would work just as well as the roses.. Now, I thought that a bit of a highlight was needed make the egg look more '3D', so with the selection too set to ellipse, I made a small ellipse on the top left side of the egg and flood filled it with white.. I want to center my flowers on the egg, so I'll start with the image and draw the oval on it. [Unable To Launch Google Emulator Manager From Vs For Mac](#)

0 4 or later Eye candy 3 - free download Jade Cat Tubes Tutorial This tutorial will show you how to make Easter Eggs with Paint Shop Pro (works with Versions 5 and above) and Alien Skin's Eye Candy.. I could also have made an oval with the selection tool on a blank image and added my pattern with the flood fill tool.. com' button below, are not offered for your use Please do not take them I'm going to make this egg from a photo of yellow roses.. This image is 269 x 312 pixels It will make a very large egg, but the egg will look nicer if you start big and then scale it down when it's finished.. (NOTE: The number of pixels you need to contract may vary, depending on the size of your original image.. This contracts the selection so that it only encloses the part of the image that Eye Candy changed.. Then paste to a new image, Edit/Paste as new image, (or use the keyboard shortcut: Ctrl+V).. (TIP: Once you have an oval shape you like, save it to the alpha channel [Selection/Save to Alpha Channel], so that you won't have to draw it again..) Choose the selection tool, Selection Type = Ellipse, Feather = 0, Antialias not checked.. Alien Skin only supports Eye Candy 4000 with programs on this host list Eye Candy 3 only works Adobe Photoshop 3..) With the oval selection active, select Filters/Eye Candy/Water Drops For this egg, I used the following settings: Number of drops: 1 Edge Darkness: 80 Opacity%: 50 Refraction: 18 Color: White Random Seed: 1 Highlight Brightness: 22 Highlight Sharpness: 50 Lighting Direction: 304 Lighting Inclination: 47 These settings gave me the following image: See how the selection is outside the raised part of the egg? So choose Selections/Modify/Contract/4 pixels..) With the oval selection still active, copy the image, Edit/copy (or use the keyboard shortcut: Ctrl+C).. With the white ellipse still selected, choose Selections/Promote to layer, (Keyboard shortcut: Shift+Ctrl+P). e828bfe731 [Checksoft Home And Business 12 License Key](#)
